

PRASHANT KANDAPAL

AI & Machine Learning Student

parthkd.coder@gmail.com • +91-6398101335 • linkedin.com/in/prashant-kandpal-1b4375282

Professional Summary

Proactive final-year B.Tech. student specializing in Artificial Intelligence and Machine Learning with strong technical skills in full-stack development and data structures. Passionate about applying analytical problem-solving to real-world challenges and continuously adapting to evolving technologies.

Notable Achievements

- Published a research paper on Machine Learning-based User Authentication Anomaly Detection, focusing on analytical modelling and security-driven insights.
- Completed Deloitte Australia's Data Analytics Job Simulation through Forage, performing practical data modelling and spreadsheet-based analysis aligned with real-world consulting scenarios.
- Earned Microsoft & LinkedIn Learning's Career Essentials in Software Development certification, mastering software development fundamentals and professional engineering practices.

Projects

ML-Powered System for Detecting Suspicious User Logins

Developed a MLsystem to detect anomalous user login patterns and enhance authentication security.

Crop Health & Disease Diagnostic App

Built an application to diagnose crop diseases and monitor plant health using technological solutions.

Astrology: Cosmic Insight

Created an astrology application providing cosmic insights and personalized readings.

Skills

• DSA • C++ • Python • Java • JS • MERN • Git

Education

2022 - 2026	B.Tech. in Artificial Intelligence and Machine Learning Uttarakhand Technical University
2021	12th Campus School, Pantnagar - 86% marks
2019	10th Campus School, Pantnagar - 92.40% marks

Accomplishments

Certifications

- Deloitte Australia - Data Analytics Job Simulation - Forage (June 2025)
- Career Essentials in Software Development - Microsoft & LinkedIn Learning
- GATE-2026 Qualified CS/IT

Publications

- Machine Learning-based User Authentication Anomaly Detection

Interests & Hobbies

Cinema as a medium for understanding life perspectives, Hindi literature and novels, music for mental reflection, and recreational cricket.
